

Addressing Inequalities and Improving Palliative and End of Life Care for People with Learning Disabilities and Autism

**You are invited to join us for a shared learning session on Wednesday 29th October
at 2:00pm – 4:30pm, Virtual (MS Teams)
Please register [here](#)**

The session is for health and social care professionals across North East & Yorkshire who are interested in, or involved with, providing care for people with learning disabilities and autism, who have palliative or end of life care needs. It will include presentations, case studies and shared learning from experts across the region.

The session will be facilitated by:

Dr Sam Kyeremateng, NHS England Clinical Lead for Palliative and End of Life Care, North East & Yorkshire.
Maria Foster, NHS England Health Inequalities Senior Manager & Regional Coordinator for LeDeR, Learning Disability and Autism, North East & Yorkshire.

For further information about the session, please contact: england.neyphysicalhealthandltc@nhs.net
